

Volunteer Foundations: Community Service & Take Action

Community service has always been an important part of Girl Scouts and was something our founder, Juliette Gordon Low, valued the most.

An example of a community service project is hosting a toy drive for the holidays.

Community service projects are a one-time event. Communities always need help, like cleaning up flower beds around town.

Picking up trash is a great community project, and it makes the world a better place.

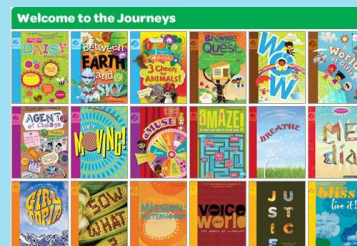

Take action projects address the root of an issue and create a lasting effect.

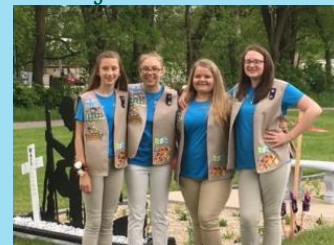

Bronze, Silver and Gold Awards also include a Take Action Project.

Go to our website at gsnim.org for more information on Higher Awards.

To complete a Journey, you need to do a Take Action Project.

Creating a Memorial Garden is an example of a Take Action Project.
